Dear Participants,

Please note, that for the smooth organization of the registration each participant should indicate, if a confirmation of attendance is needed (it will be prepared on the second day of the conference or sent by e-mail).

Also an excursion choice of the excursions should be indicated before the September 24 (so we know what size of groups will be). In the case of late decision the organizers do not guarantee the possibility to participate in the excursion. More about the excursion choice:
